 5312021 (incl. case)
 Nemo Grabo PRO battery-powered lifter with 1 battery, 1 battery charger,
 1 sealing ring

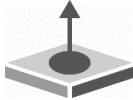

Description:

The Nemo Grabo is a fully mobile electric vacuum hand vacuum that has a holding power of up to 170 kg and can suction itself onto almost any surface.

The Grabo can lift, move and place virtually anything from tiles, drywall and concrete blocks to furniture and large electrical appliances. The Grabo Pro has an LCD screen with digital pressure gauge and pressure control.

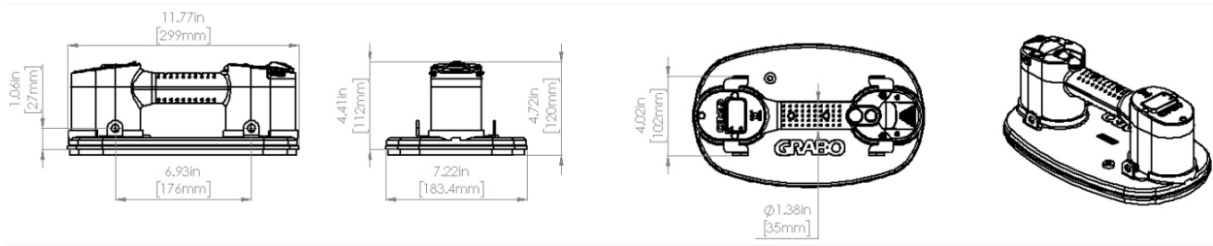

The most important technical data:

- Load capacity up to 170 kg - simple safety, vertical lifting
- Plastic handle
- Dead weight 1.5 kg
- Working time about 1.5 hours
- Incl. Vacuum safety indicator
- - Automatic re-pumping in case of vacuum loss.
- - LCD screen (Bar-Psi / Kg-Lb).
- - Narrower handle than Nemo Grabo Plus

Battery voltage	14,8V Li-ion	
Battery capacity	2.2 AH	
Charging time	Approx. 2 hours	
Lifting power	16 W	
Dimensions	297 x 181 x 115mm	
Net weight (with accumulator)	1,5 kg	
Operating temperature	0 ° C-60 ° C	
Working hours (fully loaded)	1,5 hours	
Transport goods	Max. Load capacity*	
	Load capacity vertical	Load capacity parallel
glass	170 kg	120 kg
metal	110 kg	110 kg
plastic	100 kg	100 kg
wood	100 kg	65 kg
Ceramic tiles	170 kg	120 kg
Rough concrete	80 kg	80 kg
Plasterboard	75 kg	65 kg
Other rough surfaces	80 kg	80 kg
		

*Information on the load capacities only with simple security.
